FROM THE PRINCIPAL'S DESK

As we approach the last two weeks of the year, we realize that time has slipped by so quickly and that the hours of the day is not enough to complete outstanding matters for the year.

A very successful year 12 graduation night was held at Michael's restaurant and our students presented themselves very well. MashaAllah to our year 12 graduates for achieving this milestone. The program was very successful. Our students spoke about their wonderful years at our college and thanked their teachers for working them through to success. We wish our students a successful future and may they achieve good results to be able to enter university and their chosen career paths, InshaAllah.

We look forward to our year six graduation this Wednesday as well as our special awards assembly for our year 10 and 11 students on Thursday. Our annual awards day will be held next Tuesday, 2nd December for all students from Prep to year 9. I hope to see all parents join us to share our students' achievements.

I would also like to inform you that the report cards will be posted, therefore kindly ensure that your contact details have been updated, especially if you have changed your address.

I hope to end off the year well and hope to see all parents present in the last few special awards assemblies.

Jazakallah Khair

Mariam Banwa

DATES TO REMEMBER!!

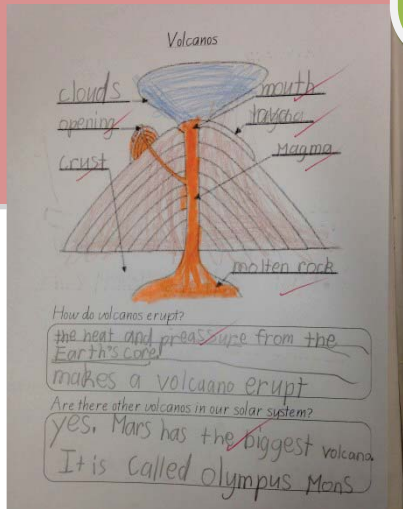

26 November	Wednesday	Yr 6 Graduation
27 November	Thursday	Awards Yr 10/11
28 November	Friday	Yr10/11 Final Day
2 December	Tuesday	Awards P-9
5 December	Friday	End of Term 4

Work samples from YEAR 1 A

This year in History and Geography, the students of year 1 have explored Natural Disasters, Australian History and the countries and continents of the world. We discovered many amazing and interesting facts while engaging within these topics.

Labeling the map of Australia

Learning about volcanoes and discovering what is inside our Earth.

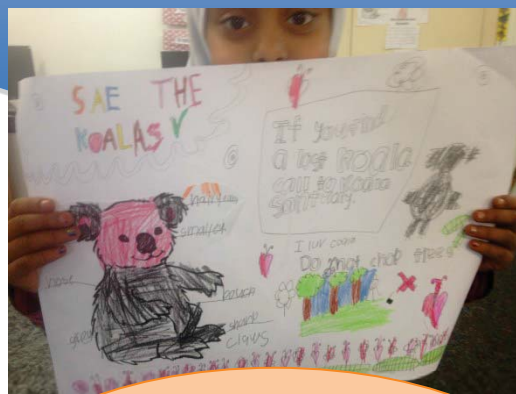

Learning about the countries and continents of the world.

In Science, the students of Year 1A have been busy wearing their scientist hats learning all about the WEATHER, OUR SOLAR SYSTEM, THE HUMAN BODY, AUSTRALIAN ANIMALS AND CREEPY CRAWLIES. We had lots of fun exploring these topics found ourselves exploring further into the topics than we had planned.

Learning about the phases of the moon as part of our space theme.

Students wrote and presented a persuasive poster on why they feel it is important to save the koalas.

When I breathe, this is how my lungs inflate

From the classroom of Year 1A with Miss Raesa Banwa

Hello from 3B!

We are well into Term 4, which has seen 3B students busy with two new projects. In Chemical Science, students have been learning about change of state and how some solids and liquids can change shape by adding or removing heat. In Geography, students have been learning about how why places are similar and different and imagining how life might be living in a neighbouring country. Everyone researched a different country and we were all very intrigued with the information students presented in their PowerPoint presentations after a few sessions in the computer lab.

Splish Splash Splosh!

Lucky P-3 students have started their swimming rotations, please keep remembering to bring your swimming gear as failing to do so will result in you missing out on learning valuable life skills... not to mention a whole lot of fun!

“We have been studying about melting. So far we’ve discovered that a solid may lose its shape and turn into a liquid after applying heat to it. Our teacher, Mrs Hashim, told us to do an assignment about melting. We were told to melt six objects in our house, then pick one to explain in detail. The object I chose was marshmallows!”

October's Student of the Month- Abdurahman Ismail

Drama Day

Dear Readers,

Assalamu Alaikum Warahmatullahi
Wabarakatuhu,

We are just at the end of term 4 and it is hard to believe that the 2014 school year is almost over. This term has been an extremely busy term with assessments and reporting. Many events have also taken place as well. On the 6 November we had our year 10/11 subject selection evening which was attended by many parents and students. The night was a huge success. I am sure that our students will choose their subjects wisely as year 11 is a big jump from year 10.

Our year 12 students will be leaving us on the 21st November and we wish them well in their future studies.

In week 8 Mrs. Saha and I will be taking our year 8 students on an excursion to Nudgee Beach as we had studied Landscapes formed by water in Geography

In September some of the Teachers at AIIC wore hijabs in support of our Muslim sisters. Pictured below is myself and my year 11 and 12 Legal Studies students.

I wish you all a happy and restful weekend. Not long to go now before you will have your son/daughter at home for the summer holidays.

Renee' Lazarus

Business Management, Legal Studies and SOSE teacher.
