Health and Safety

The school has written processes in place about the health and safety of its staff and students in accordance with relevant workplace health and safety legislation.

Responding to Reports of Harm

When the school receives any information alleging 'harm' to a student (other than harm arising from physical or sexual abuse) it will deal with the situation compassionately and fairly so as to minimise any likely harm to the extent it reasonably can. This is set out in the school’s Child Risk Management Strategy. Information relating to physical or sexual abuse is handled under obligations to report set out in this policy.

Conduct of Staff and Students

All staff, contractors and volunteers must ensure that their behaviour towards and relationships with students reflect proper standards of care for students. Staff, contractors and volunteers must not cause harm to students.
