## STUDENTS WITH DISABILITIES

This statement should be read in conjunction with the Disabilities Policy.

# Anti-Discrimination Policy

When there are available places and a student with a disability seeks admission, particular care is taken to ensure that the application is properly considered.

In considering the application the following procedures are followed:

1. The application is discussed with the parents or care-givers and the student (depending on the age of the student).
2. Detailed notes are kept of this meeting and of all subsequent conversations and meetings.
3. The Principal or Enrolments Officer speaking with the parents or caregivers will advise them in an open, honest and straightforward manner of the services and facilities available within the College and an inspection of the College's facilities will be offered at the earliest opportunity.
4. The parent's views on the additional services and facilities that the student needs will be obtained with verification of this information sought where necessary.
5. The student seeking enrolment will be observed in his/her present setting and the teachers at the school presently attended will be consulted to ascertain the assistance the student is currently receiving. Advice will be sought about the services and facilities that may be required in the future.
6. The Learning Support teacher, and a child psychologist if appropriate, will be involved at an early stage of the process. Formal assessment of the student may be conducted.
7. Any additional services and facilities that may be required will be quantified and cost.
8. It may be necessary to engage an Occupational Therapist, building consultant or architect to obtain detailed costing of modifications that may be needed.
9. It may be appropriate to obtain reports from any Medical Practitioners or other professionals involved in treating or assisting the student.
10. Enquiries will be made to determine if additional funding might be available from the Commonwealth or State Governments. This additional funding may be in the nature of recurrent or capital funding.

If the student requires additional services and facilities because of the disability and the provision of these services and facilities by the school would cause unjustifiable hardship, the enrolment may be refused by the Principal on that basis. Before this step is taken, the family seeking enrolment will be given advice about the school's preliminary view and offered the opportunity to comment.
