

# Educational Program Policy

---

Research accentuates that quality programs significantly influences children’s growth and development. We have the opportunity to construct a supportive learning environment and program, with inspirations from the children and families. This contribution can encourage the children to feel a sense of control over their actions, interactions, to explore, be curious and explore their understanding of themselves others and the world around them.

## National Quality Standards (NQS)

Quality Area 1: Educational program and practice	
1.1.1	Curriculum decision-making contributes to each child’s learning and development outcomes in relation to their identity, connection with community, wellbeing, and confidence as learners and effectiveness as communicators.
1.1.2	Each child’s current knowledge, ideas, culture, abilities and interests are the foundation of the program.
1.1.3	The program, including routines, is organised in ways that maximise opportunities for each child’s learning.
1.1.4	The documentation about each child’s program and progress is available to families.
1.1.5	Every child is supported to participate in the program.
1.1.6	Each child’s agency is promoted, enabling them to make choices and decisions and to influence events and their world.
1.2.1	Each child’s learning and development is assessed as part of an ongoing cycle of planning, documenting and evaluation.
1.2.2	Educators respond to children’s ideas and play and use intentional teaching to scaffold and extend each child’s learning.
1.2.3	Critical reflection on children’s learning and development, both as individuals and in groups, is regularly used to implement the program.

## Education and Care Services National Regulations

Children (Education and Care Services) National Law NSW	
73	Educational programs
74	Information about the educational program to be kept available
75	Information about educational program to be given to parents
76	Documenting of child assessments or evaluations for delivery of educational program

## PURPOSE

We aim to enhance children’s learning and development through the pedagogical practices of educators and families in a positive learning environment which is promoted across the five learning outcomes from Early Years Learning Framework. Educators will gather and interpret information about children as

individuals to inform the preparation of the environment and implement experiences that are engaging and meaningful.

## **SCOPE**

This policy applies to children, families, staff, and management of the service.

## **IMPLEMENTATION**

The Guide to the National Quality Standard states that, 'Planning involves observing, gathering and interpreting information about children to inform the preparation of environments and experiences that engage them and are meaningful for them. It also involves reflecting on and documenting children's experiences and learning' (p. 22).

Under the National Law and National Regulations, approved services are required to base their educational program on an approved learning framework. The program should focus on addressing the developmental needs, interests and experiences of each child, while taking into account the individual differences of each child.

There are two nationally approved learning frameworks in New South Wales which outline practices that support and promote children's learning:

- Belonging, Being and Becoming: The Early Years Learning Framework for Australia ('Early Years Learning Framework (EYLF)')
- My Time, Our Place: Framework for School Age Care in Australia ('Framework for School Age Care').

**There are also jurisdiction-specific approved learning frameworks:**

- Australian Capital Territory: Every Chance to Learn—Curriculum framework for ACT schools preschool to Year 10
- Tasmania: the Tasmanian Curriculum, the Department of Education of Tasmania, 2008
- Victoria: the Victorian Early Years Learning and Development Framework
- Western Australia: the Curriculum Framework for Kindergarten to Year 12 Education in Western Australia.

**Our service is committed to the Early Years Learning Framework (EYLF).**

## Early Years Learning Framework

- Each child's learning will be based on their interests and strengths and guided by educators.
- Educators must work in collaboration with families to provide relevant learning experiences for each child, based on their interests and family experiences.
- Every child will be equally valued. Their achievements & learning will be celebrated.
- Educators will observe and record the strengths and learning of each child.
- Educators will work closely with children and families to produce ideas for the curriculum.
- Learning Outcomes will be linked to the curriculum during and after each child's learning has occurred.
- The curriculum will be constructed on the children's interests, educators extending children's interests, spontaneous experiences and family contribution.
- Where appropriate, the service will liaise with external agencies and support persons to best educate and care for children with additional needs.
- Where appropriate, the curriculum (play and learning experiences) will build and develop each child's Learning Stories, Portfolio and Observations of each child's strengths and development.
- The curriculum will be evaluated and reflected upon continuously by educators

## **Management/ A Nominated Supervisor/ Certified Supervisor will:**

- Ensure that a suitable program based on an approved learning framework is delivered to all children
- Ensure all Educators work as a team in preparing and/or implementing the curriculum which collaborates with the service philosophy
- Ensure modifications are made in the environment for children with special needs. Management will make appropriate, professional referrals where necessary with family permission
- Ensure a conscious balance between indoor and outdoor experiences is planned for with large blocks of unstructured time for child initiated play
- Communicate with families on a regular basis
- Ensure each child is acknowledged for their uniqueness in a positive way
- Support children's efforts, assisting and encouraging as appropriate
- Be consistently aware of and responsive to children who may require additional support, assistance or attention, noticing and listening carefully to children's concerns and discussing diverse perspectives on issues of inclusion and exclusion and fair and unfair behaviour.

**Educators will:**

- Implement an ongoing cycle of planning, documenting and evaluating children's learning which will underpin the educational program and involves educators in critically thinking about what is obtainable and why.
- Document children's experiences and their responses to the environment making children's learning visible to children, educators and families and promotes shared learning and collaboration.
- Provide experiences that include both structured and unstructured learning times catering for children's individual needs, interests and are age appropriate.
- Ensure materials and equipment reflect the cultural diversity that exists in our society
- Respond to children's ideas and play and use intentional teaching to scaffold and extend each child's learning
- Provide experiences that actively promote and initiate the investigation of ideas, complex concepts and thinking, reasoning and hypothesising
- Gather information from families upon enrolment regarding the child's needs, interest and family backgrounds. This information is treated as confidential and allows Educators to provide experiences that interest and extend children's current development. We feel that it is important to develop a partnership between parents and Educators to ensure that consistency between home and the Service occurs and that the best possible care is provided
- Explore ideas and theories using imagination, creativity and play, during large blocks of uninterrupted time.
- Use the learning outcomes to guide their planning for children's learning.
- Intentionally scaffold children's understanding and learning
- Make use of spontaneous 'teachable moments' to extend children's learning
- Respond to children's displays of learning dispositions by commenting on them and providing encouragement and additional ideas
- View children as active participants and decision makers, working with each child's unique qualities and abilities
- Further extend critical thinking skills through provocations
- Plan realistic curriculum goals for children based on observation and assessment of individual needs and interests.

- Seek opportunities within the routine for spontaneous play
- Ensure that all children’s experiences are recognised and valued with equitable access to resources and opportunities to demonstrate their learning.
- Use a variety of methods to assist their reflection on children’s experiences, thinking and learning
- Ensure critical reflection clearly exams all aspects of events and experiences from different perspectives, identifying children’s learning, spontaneous play, teaching strategies and changes that may be needed in the environment.

The program will provide a variety of developmentally appropriate experiences and materials that are selected to achieve the following goals:

- Foster positive self-concept
- Develop social skills
- Encourage children to think, reason, question and experiment
- Encourage language development
- Enhance physical development and skills
- Encourage and demonstrate sound health, safety and nutritional practices
- Encourage creative expression
- Respect cultural diversity of staff and children
- Respect gender diversity
