At Australian International Islamic College, we expect our employees to conduct themselves as follows:

School employees are expected to always behave in ways that promote the safety, welfare and wellbeing of our students. Employees must actively seek to prevent harm to students, and to support those who have been harmed.

Specific responsibilities include:

- Employees should avoid situations where they are alone in an enclosed space with a student.
- When physical contact with a student is a necessary part of the teaching/learning experience, employees must exercise caution to ensure that the contact is appropriate and acceptable. Employees must always advise the student of what they intend doing and seek their consent.
- Employees must not develop a relationship with any student that is, or that can be interpreted as having a personal rather than a professional interest in a student.
- Employees must not have a romantic or sexual relationship with a student.

This commitment is evidence of Australian International Islamic College fulfilment of the requirements of the Regulations S3(1)(b).

#### 2. Recruitment, Selection, Training and Management Procedures

Australian International Islamic College is committed to recruiting, selecting, training and managing employees in such a way that limits risks to students. In particular, Australian International Islamic College will:

- Ensure that its recruitment and selection procedures act to reduce the risk of harm to children from employees via:
  - Accurate position descriptions, including whether the successful applicant must be a teacher registered with the Queensland College of Teachers (who has been subject to relevant police and other safety checks), whether a Blue Card is necessary for the successful applicant, the responsibilities and supervision associated with the position, the nature and environment of the service provided to students, and the experience and qualifications required by the successful applicant.

- Advertising the position with a clear statement about the school's commitment to safe and supportive work practices and identifying that candidates will be subject to a teacher registration check or Blue Card screening, a police check, referee checks, identification verification and the requirement to disclose any information relevant to the candidates' eligibility to engage in activities including children.
- A selection process that includes assessing the application via an interview process and referee and other checks (as identified above) based on the accurate position description.
- A probationary period of employment, which allows the school to further assess the suitability of the new employee and to act as a check on the selection process.
- Ensure that its training and management procedures act to reduce the risk of harm to students from employees via:
  - Management processes that are consistent, fair and supportive.
  - Performance management processes to help employees to improve their performance in a positive manner.
  - Supportive processes for staff when they are experiencing challenges, such as mentoring, mediation, conflict resolution, coaching, additional training, and external support and counselling services.
  - An induction program which thoroughly addresses the school's policies and procedures, particularly its expectations regarding student risk management and to assist employees to understand their role in providing a safe and supportive environment for students.
  - Training new and existing staff on an ongoing basis to enhance skills and knowledge and to reduce exposure to risks, as follows:
