

# DAYLIGHT POLICY

## Physical Separation between male and female students

### PREFACE

Australian International Islamic College is a co-educational school, where Islamic values and ethos are valued, respected and honoured. The policy outlines the guidelines on mixing of male and female students in the college.

### PURPOSE

The policy aims to encourage, motivate and support students to achieve excellence in character by providing clear expectations. It provides guidelines to maintain a reasonable distance between male and female students that allow them to participate in all learning activities.

### SCOPE

The policy applies to all male and female students at Australian International Islamic College.

### POLICY STATEMENT

Australian International Islamic College wants to maintain physical separation between male and female students. To achieve the physical separation, staff members of the college must be vigilant to ensure that boys and girls always distance themselves from each other and queue up separately wherever necessary.

#### ***What is allowed?***
