BRING YOUR OWN DEVICE (BYOD) Program 2026

Dear Parents/Caregivers,

For 2026, your child, entering Year 7, will also be required to bring a device to school for their learning.

Together with our IT Department, we have outlined below AIIC's minimum recommended specifications for a device.

Note: Chromebooks, iPads, and tablets are not allowed as they are NOT compatible with the AIIC BYOD Program.

These are the specifications of AIIC BYOD Laptops that the students will need:

✓ Laptop	✓ Charger
✓ Laptop Bag	✓ Headphones
✓ Mouse (Optional)	
✓ Accidental Damage Protection (Highly Recommended)	

Students may purchase their devices from high street stores such as Officeworks, JB Hi-Fi, or Harvey Norman, or online.

Category	Years 7 & above
Processor	Intel i3/ AMD Ryzen 3 or better
RAM	8 GB or more
Storage	256 GB
Operating System	Windows 11
Wi-Fi	Wi-Fi 6 (802.11 ax) Dual Band

Professional Tip: Investing in an Intel i3 or AMD Ryzen 3 processor or better will ensure sufficient performance for high school needs.

Please ensure Windows 11 is not in "S mode."

Remember Chromebooks, iPads, and tablets are NOT allowed as they are not compatible with the AIIC BYOD Program

ABN 85 802 283 515
CRICOS NO. 02724C

Students are responsible for taking care of their laptops, ensuring they are charged and ready for use. The choice of device depends on your budget and your child's future technical needs, which may vary based on their high school subjects.

There are various devices available with different specifications and price points. Students may also use an existing device, provided it supports Windows 11 platforms and meets the College's specifications.

As technology evolves, we aim to continuously improve the BYOD program. Should you have questions or feedback, please contact the school on **(07) 3372 1400**, and we will respond to your query within one business day.

Yours sincerely,

Miss Renee Lazarus
Head of Secondary
